## Monthly Notices of the Royal Astronomical Society

February 28, 2006

Dear Ms. Geeson,

I would appreciate your consideration of the manuscript, “Wind signatures in the X-ray emission line profiles of the late O supergiant zeta Orionis” by Cohen, Leutenegger, Grizzard, Reed, Kramer, and Owocki (MS MN-06-0094-MJ), which we have now resubmitted for a second time.

This second resubmission addresses a single request from the editor that we add a footnote, justifying our choice of the wind velocity law. We’ve also updated one reference and made very minor modifications to two captions. These changes have been detailed in the appropriate form at the web-based submission site. However, you can find a more conveniently formatted copy at:

[http://astro.swarthmore.edu/~cohen/projects/zori/refrep2\\_response\\_28feb06.pdf](http://astro.swarthmore.edu/~cohen/projects/zori/refrep2_response_28feb06.pdf)

We wish to thank both you and the referee for the speed with which you have handled our manuscript, and we look forward to hearing back from you about these last changes.

Sincerely,

David H. Cohen
